

## Waste Minimisation Policy

BES-SOP-005

Rev. 06

04/04/2023

Page 1 of 1

Midland Steel Reinforcement Supplies Ltd, Midland Steel Reinforcement Supplies GB Ltd and MW Steel Trading, hereafter known as Midland Steel Reinforcement Supplies has stated the Companies commitment to good environmental practice in our Environmental Policy, as part of its ISO 14001 Accreditation. This document expands on that Policy as it relates to waste minimisation. Where practicable we will develop the existing Environmental Policy by minimising the production of waste through good purchasing practice and waste minimisation techniques where practicable.

Our waste minimisation goals are to:

- Prevent and / or Reduce Waste;
- Reuse Materials;
- Recycle Waste and
- Send Minimum Amounts of Waste to Landfill.

To achieve our goals for waste minimisation, Midland Steel Reinforcement Supplies will:

- Cultivate a work ethic with a high level of awareness of waste minimisation and recycling through providing advice and guidance to employees and supply chain stakeholders;
- Encourage the purchase of recycled / sustainable materials and those that are suitable for disposal by recycling, and conserve natural resources;
- Encourage Production and Office locations to design out waste where possible;
- Promote economy in the use of paper and the selection of print formats and document styles in line with this by encouraging staff to use email facilities, to re-use paper where possible, to avoid unnecessary printing and to use double-sided printing formats;
- Adopt paper-free billing options wherever possible;
- Favour suppliers who eliminate packaging as part of their supply contract and obligations, and who operate according to best available environmental techniques;
- Minimise waste by encouraging the exchange and reuse of equipment and materials and
- Adopt and implement good waste management practices to minimise potential harm to the environment.

Midland Steel Reinforcement Supplies will endeavour to manage waste in a cost effective manner that maximises environmental benefits and minimises long term financial liability. We will review this Waste Minimisation Policy on a regular basis to incorporate all new regulations, initiatives and best available technologies.

Signed

Tony Woods  
Managing Director
