

Greenhouse Gas Emissions Policy

BES-SOP-002	Rev.6
04/04/2023	Page 1 of 1

This policy sets out Midland Steel Reinforcement Supplies Ltd, Midland Steel Reinforcement Supplies GB Ltd and MW Steel Trading, hereafter known as Midland Steel Reinforcement Supplies, Greenhouse Gas (GHG) Emissions Policy.

Midland Steel Reinforcement Supplies are committed to the efficient use of energy and natural resources and the reduction of greenhouse gases, thereby minimising our environmental impact, adding value to our business and enabling us to fulfil our corporate responsibilities.

Midland Steel Reinforcement Supplies seeks to monitor, control and reduce its greenhouse gas emission, promoting efficiency throughout its operations, and reducing our use of materials and resources that contribute to greenhouse gas emissions. We also promote the importance of greenhouse gas emissions management for the economic, social and environmental well-being of our stakeholders. Midland Steel Reinforcement Supplies Ltd is committed to:

- Continual improvement of the energy efficiency and environmental impacts of our operations.
- Consideration of energy and environmental impacts in relevant business decision-making processes.
- Meeting all relevant laws and regulations and other requirements to which the company subscribes, related to our energy usage and GHG emissions and monitoring compliance through periodic assessment.
- Establishment of improvement objectives and targets which are periodically reviewed.
- Ensuring the availability of information and resources necessary to meet our objectives and targets.
- Sharing of energy management best practices throughout our businesses.
- Promotion of a corporate culture of energy conservation through employee education and involvement.
- Securing of adequate, reliable and cost-effective energy supplies.
- Use of cost-effective and reliable renewable energy sources, where available.

Midland Steel Reinforcement Supplies Ltd recognises the importance of looking at power sources, process operations and transport requirements with the goal of reducing greenhouse gas emissions. We are making available all the necessary information and appropriate resources to achieve any objective and target in this regard.
